Amendment 001

The PSOW and Specification ES-CEE-FA5180-01 state required dimensions that must be minimally be met. However, FRNP has since learned that some dimensions, as stated “minimally”, may cause increases in cost due to additional shipping and installation labor. FRNP is not in the business of designing or building triple-wide trailers and therefore does not have a cumulative knowledge base for this type of work. The primary reason for stating dimensions was to provide an idea of area needed for the Contractor’s scope for the DOE.

The primary purpose of purchasing triple-wide trailers is to support our client’s needs for our site mission and for housing personnel at the project. The primary goal is to provide space to accommodate the uses of the trailers as specified in the PSOW and Specification ES-CEE-FA5180-01. FRNP has re-evaluated offices needed under section 3.5, *Cubicles and Furniture*, in ES-CEE-FA5180-01, and determined that the minimum number of offices required is 35, with two (2) of those being larger cubicles to accommodate management personnel. More is acceptable if the subcontractor can optimize the floor plan.

Conventional sized triple-wide trailers or normal deviations of triple-wide trailers will be considered acceptable for purposes of this solicitation. The vendor should use their knowledge base to build their proposal. Questions are welcomed by FRNP for proposal preparers.
